

CETL THE BRIGHTEST MIND SCHOLARSHIP PROGRAM RECIPIENTS' STORIES

I am Halima Begum Mim, doing my BBA currently at GUB. I have joined CETL, GUB two semesters ago to learn new things and to contribute something to the community. After working one semester with CETL Green University of Bangladesh, one fine morning, I received an email stating that I was selected for the CETL Brightest Mind Scholarship. I bear the expenses of my study on my own, the money I got as a reward of the scholarship lightened my financial burden for that semester. The scholarship enriched my resume and motivated me to be more dedicated to my work as well. I am grateful to work with CETL.

Halima Mim

“The COVID 19 Pandemic has shown us the other side of life”- It has changed our views and concepts about the method of leading our life. Like many others, I lost my job also. As I was sweltering to manage my living expenses, I did not know what to do. I am extremely grateful to the masterminds of the Center of Excellence for Teaching and Learning (CETL) for introducing the CETL Brightest Minds Scholarship and choosing me as a recipient of the scholarship. The nearly dead dream tree is now alive. I am hoping to finish my target line as I was dreaming because of this scholarship opportunity.

Md. Hafiz Sikder

I have completed 3 semesters at Green university of Bangladesh. After registration of my 4th semester, I dropped it due to some issues.

Receiving the CETL Brightest Mind Scholarship while doing a voluntary internship in the Spring semester at the Language Center of Green university has reinforced me again to continue my study again.
